Call for Papers

Microwave Signatures 2013, organized jointly by URSI Commission F and Aalto University, provides an international forum for reporting and discussing recent achievements in instrumentation, methodology, and applications in the field of land, ocean, and atmosphere remote sensing.

Topic highlights

- Theory, physical principles and electromagnetic models
- Observations of the atmosphere and the surface
- Retrieval of atmospheric and surface parameters
- Advanced radiometer and rada techniques
- Sensor calibration
- Combined active/passive instruments and remote sensing
- Satellite missions and experimental campaigns
- Small satellites and UAVs for remote sensing
- Climate and global change
- RFI and spectrum management

One-page abstracts should be submitted by **May 27, 2013** to e-mail address abstracts.frs2013@ursi.fi. Notification of the review outcome is sent to authors by **July 15, 2013**. For submission details and templates please visit the conference home page at:
